

# HIDRACAR S.A.

## APPLICATIONS OF OLEO-PNEUMATIC ACCUMULATORS IN AGRICULTURAL MACHINERY AND TRAILERS

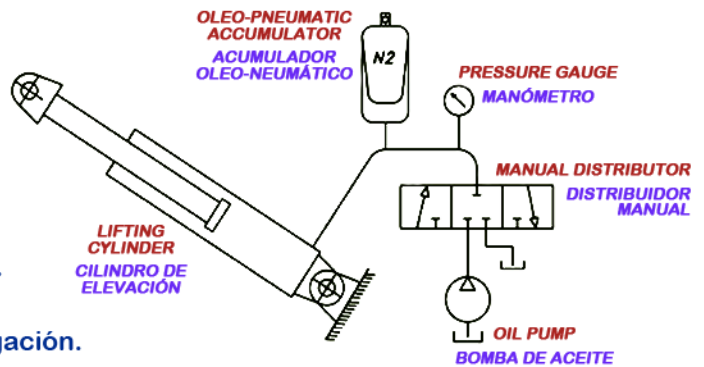

## APLICACIONES DE LOS ACUMULADORES OLEO-NEUMÁTICOS EN MAQUINARIA AGRÍCOLA

### SUSPENSION OF:

- Platform headers of COMBINE HARVESTERS (as substitutes for mechanical springs already installed).
- Loaders attached to the front of TRACTORS.
- Hydraulic arms of BOOM MOWERS.
- Spray booms in CROP SPRAYERS.
- Front ballast holders in TRACTORS.

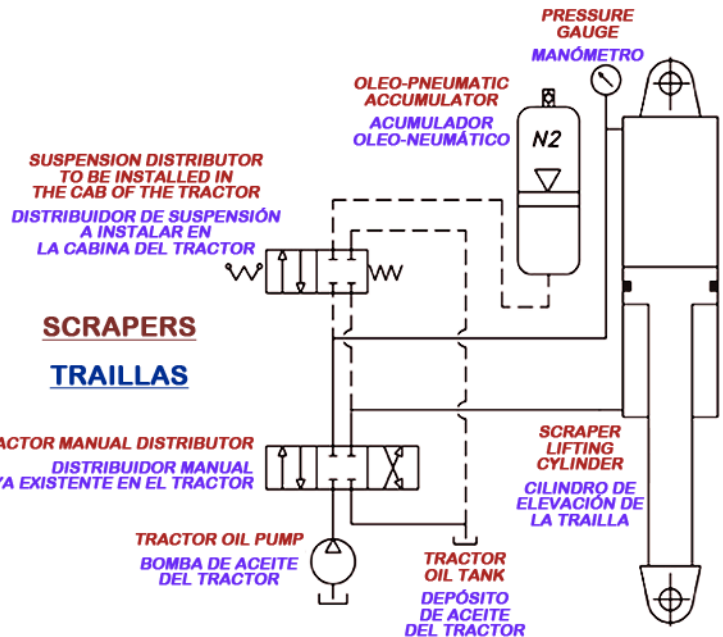

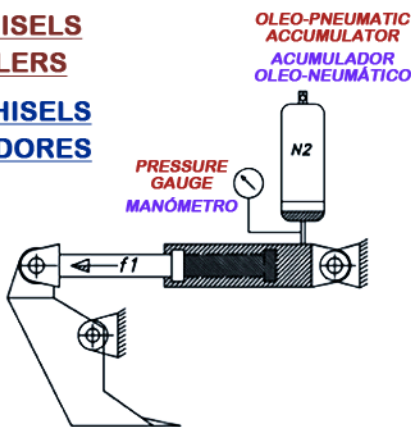

### SUSPENSIÓN DE:

- Plataformas de corte de COSECHADORAS (puede sustituir a los muelles mecánicos ya instalados).
- Palas acopladas a la parte frontal de TRACTORES.
- Brazos suspendidos de DESBROZADORAS.
- Brazos extendidos de PULVERIZADORES de fumigación.
- Contapesos frontales de TRACTORES.

### PLOWS, CHISELS & SUBSOILERS

### ARADOS, CHISELS Y SUBSOLADORES

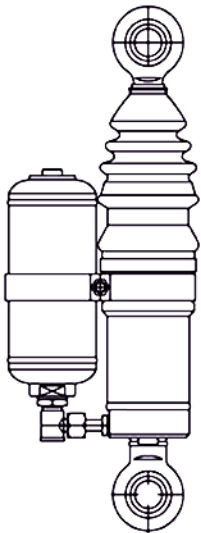

### LOAD & TANK TRAILERS

(The suspension does not get reduced when the vehicle is on its max. load).

### CUBAS Y REMOLQUES

(La suspensión no se endurece a plena carga).

### VIBRATION AND PULSATION DAMPENERS

in **PISTON PUMPS** (Eliminates flow and pressure pulses, lengthening the working life of both hoses and pump).

### AMORTIGUADOR DE PULSACIONES Y

### VIBRACIONES en BOMBAS DE PISTONES

(Eliminan los impulsos de caudal y presión, y alargan la vida de mangueras y la propia bomba).
